Dear Parent/Carer

All children in Reception are offered a height and weight measurement as part of the **National Child Measurement Programme (NCMP)**. Children are also offered vision and hearing screening, which are carried out by Orthoptics and Audiology services.

Parents/carers are invited to complete a Reception Health Needs Assessment Questionnaire. This helps the School Nursing Team identify any health needs and provide advice or support to help ensure your child's health does not impact on their development, wellbeing or learning.

To complete the questionnaire and access further information about the National Child Measurement Programme, please register on the School Screener Parent Portal using the link below:

https://hmr033.schoolscreener.com/Portal/#/hmr1/p/Heyh431/3543312

If you do not wish your child to take part in the National Child Measurement Programme, please use the link above to opt out or contact the School Nursing Team on **0161 206 2906**.

YOUR CHILD WILL BE INCLUDED IN THE PROGRAMME UNLESS YOU INFORM US OTHERWISE.

Yours sincerely,

School Nursing Team

Roxanne Kirby
