

Dear Parent/Carer

To ensure a healthy start to your child's school life the school nursing team would like all parents/carers to complete a short health questionnaire. The team are able to provide support and advice to ensure any health issues do not impact on your child's development or learning.

In England as part of the National Child measurement programme (NCMP) all children in Reception are offered a growth measurement and vision and hearing screening.

Please click the following link to read more information on the NCMP and complete the questionnaire.

<https://app.schoolscreener.com/Portal/#/hmr1/p/HMRh2324YR/EE105818>

Please note if you do not wish for your child to be offered a growth measurement or be part of the hearing and vision screening you must ensure that you access the link above to opt out or contact the school nursing team on (0161 206 7721).

YOUR CHILD WILL BE INCLUDED IN THE SCREENING PROGRAMME UNLESS YOU ADVISE US OTHERWISE

Yours Sincerely
School Nursing Team
